In the cloud

```
          A              E
Ch   In the cloud in the cloud
     D                    E                    A
     That's where your memories have to go
          A              E
     In the cloud in the cloud
     D                    E                    A
     That's where your memories have to go
```

```
     A                                        D
1.   Your memory still keeps me up at night
                    E                        A
     What you've done to me just ain't right
```

2. You tried to fool me once or twice
   Hopin' I won't realize

3. Now I feel a cold chill blowin'
   I don't care just where you're going
